Second regular session 2009
8 to 11 September 2009, New York
Item 2 of the provisional agenda
Financial, administrative and budgetary matters

Information on United Nations system technical cooperation expenditures, 2008

Summary

In its decision 81/34 of 27 June 1981, the UNDP Governing Council requested the Administrator to continue to provide data on the magnitude and composition of technical cooperation activities funded by organizations of the United Nations system (DP/2006/42/Add.1 refers). These organizations include the UNDP, UNFPA, the United Nations Children's Fund, the World Food Programme and participating organizations.

Additionally, information of technical cooperation provided by the World Bank/International Development Association is presented independently in table 23 of DP/2009/29/Add.1.

General Assembly resolution 63/232, adopted on 17 March 2009, requested UNDP and the United Nations Department of Economic and Social Affairs to integrate, by 2010, information from the report on United Nations system technical cooperation expenditures and its statistical addendum into the report on the comprehensive statistical analysis of the financing of operational activities for the development of the United Nations system.

Elements of a decision

The Executive Board may wish to (a) support the integration of information from the report on United Nations system technical cooperation expenditures and its statistical addendum into the report on the comprehensive statistical analysis of the financing of operational activities for the development of the United Nations system, as per General Assembly resolution 63/232, and (b) take note that, effective 2010, the United Nations Department of Economic and Social Affairs will implement resolution 63/232 and prepare a comprehensive statistical analysis of the financing of operational activities for the development of the United Nations system.

09-40387 (E) 030809

I. Highlights

1. In 2008, expenditure of technical cooperation on Millennium Development Goals across the United Nations system and programme countries (excluding the World Bank group), was $15.2 billion – a 16.3 per cent increase over the $13.1 billion spent in 2007.

2. A statistical snapshot over the last five-year period is presented at the end of this paper and captures the perspective of multi-year trends in growth of technical cooperation expenditure incurred, and contributions received.

3. Executing and specialized organizations reported an overall increase of 16.8 per cent in expenditure, from $3.5 billion in 2007 to $4.1 billion in 2008. Contributions to these organizations dropped nearly 12 per cent, from $4.1 billion in 2007 to $3.6 billion in 2008. Overall growth in expenditure at UNDP was 11 per cent, up to $4.3 billion in 2008 from $3.9 billion in 2007. However, contributions to UNDP, decreased some 2 per cent. With its focus on humanitarian activities, the World Food Programme (WFP) continued to record significant increases in programme expenditure aimed at alleviating human distress. In 2008, WFP spent $3.5 billion towards this objective, a year-over-year increase of 28 per cent ($2.8 billion in 2007). Contributions received by WFP rose 77 per cent over, from $2.8 billion in 2007, to $5.0 billion in 2008. UNICEF, with its focus on the well-being of children, spent $2.7 billion in 2008 – an 11 per cent increase from the 2007 level of $2.4 billion. The United Nations Children's Fund (UNICEF) also saw a significant increase in funding, from $2.9 billion in 2007 to $3.4 billion (14 per cent). In keeping with its mandate, UNFPA concentrated its efforts on population activities as they relate to women and children with an emphasis on the disenfranchised. UNFPA spent $554 million in 2008, an increase of approximately 16 per cent over the $477.8 million spent in 2007. UNFPA receipts were 12 per cent greater in 2008, increasing from $673.9 million to $754.8 million. An analysis of the five-year trend in growth of technical cooperation expended by the organizations, funds and programmes is shown in figures 1 and 2.

4. The World Bank/International Development Association assistance to developing nations in 2008 amounted to $138.8 million. This was a decrease of 38.8 per cent compared with $227.2 million spent in 2007. In 1998, the World Bank/International Development Association decided to stop recording expenditures specifically related to technical cooperation activities. Thereafter, summary data submitted represented a combination of loans and grants related to assistance preceding, or combined with, large-scale programmes and projects. Table 23 of the addendum (DP/2009/32/Add.1) provides detailed analysis of the activities as presented by the World Bank/International Development Association.

5. In 2008, the total amount of technical cooperation spent was $15.2 billion. UNDP central resources and its administered funds accounted for $4.3 billion of total expenditures, equivalent to 28 per cent of total technical cooperation. WFP reported expenditure of $3.5 billion, or 23 per cent of total technical cooperation. UNICEF spent $2.7 billion, equivalent to 18 per cent of total technical expenditures, while UNFPA spent $554 million, or 4 per cent of total technical cooperation expenditures. The combined balance of the other specialized organizations, funds and programmes was $4.1 billion, equal to approximately 27 per cent of total technical cooperation expenditures.

Figure 1: United Nations system overall technical cooperation expenditure – five year trend, 2004-2008
(in millions of dollars)

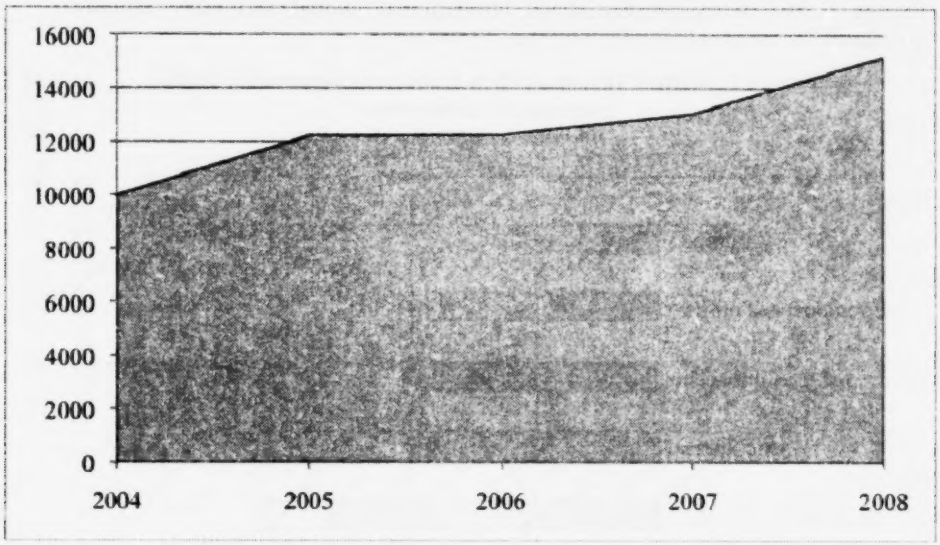

Figure 2: United Nations system technical cooperation expenditure – by organization, 2004-2008
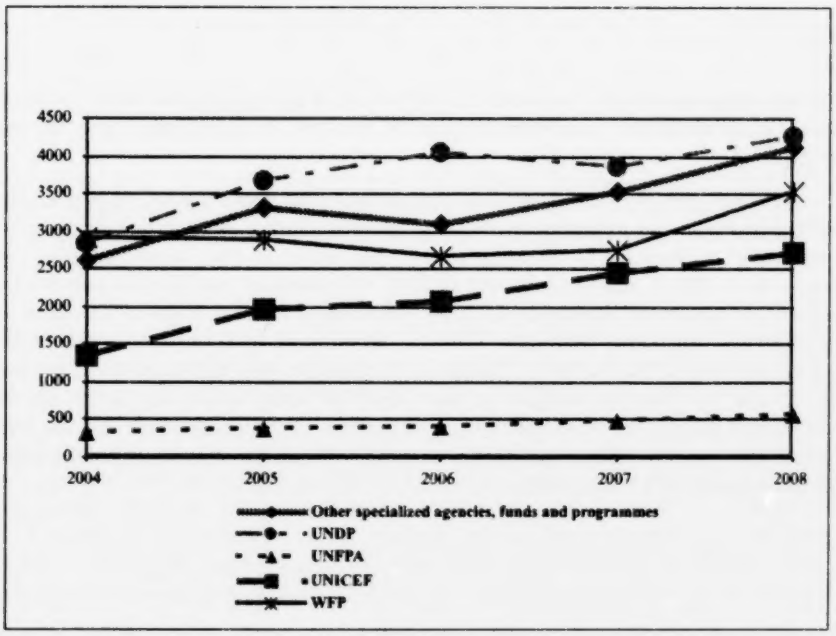
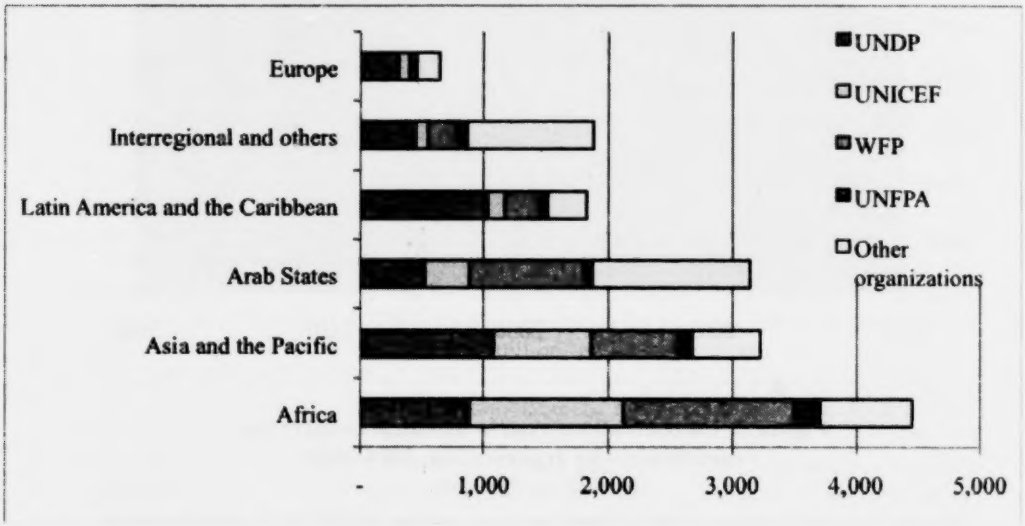
(in millions of dollars)



6. As shown in figure 3, technical cooperation was distributed among the five major regions during 2008, as follows: Africa – $4.4 billion (29 per cent); Asia and the Pacific – $3.2 billion (21 per cent); Arab States – $3.1 billion (21 per cent); Latin America and the Caribbean – approximately $1.8 billion (12 per cent); and Europe – $0.6 billion (4 per cent). Interregional, global and other initiatives accounted for the remaining $1.9 billion (13 per cent).

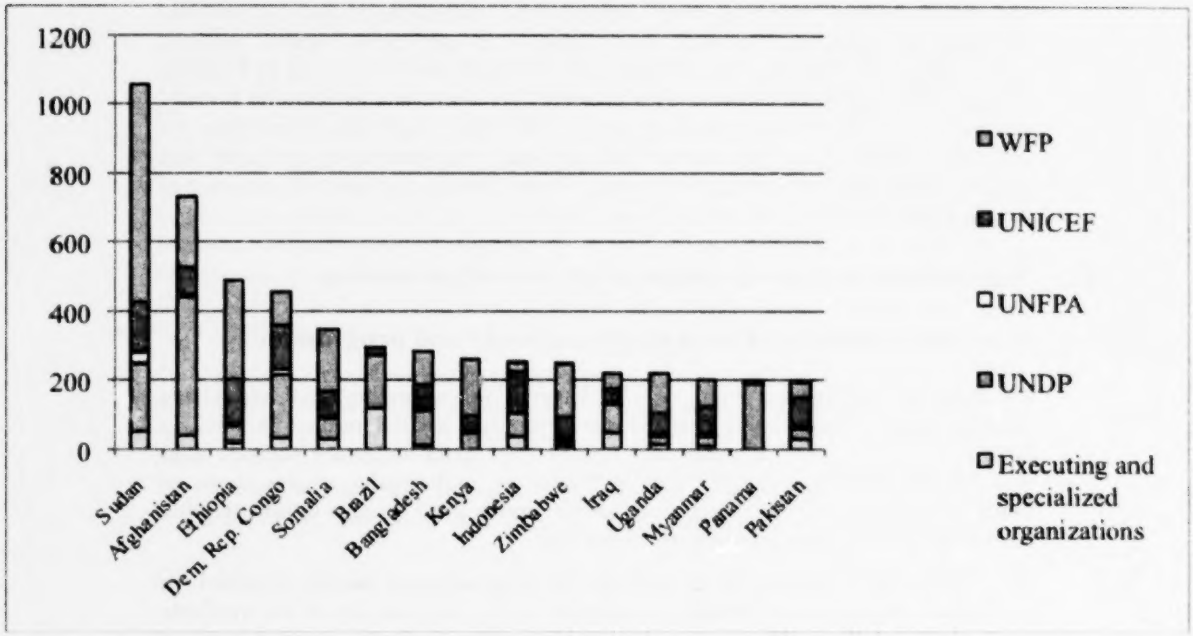
Figure 3: United Nations system technical cooperation 2008: geographic breakdown
(in millions of dollars)



7. Out of the combined pool of $15.2 billion, $5.4 billion (36 per cent) was spent among 15 programme countries. Figure 4 presents a graphical view of this distribution.

8. Figure 4 also presents the allocation among the participating organizations, UNDP, and funds and programmes. Similar to 2007, Sudan was the largest recipient of technical cooperation – $1.1 billion (7 per cent) of the combined pool, an increase from $982.7 million received in 2007. Afghanistan was also among the top recipients of technical assistance in 2008, receiving $729.9 million (5 per cent) of total technical assistance resources. This was an increase of $246.1 million from the amount received in 2007 of $482.2 million. The third largest recipient was Ethiopia, with a total of $489.6 million (3 per cent) of total resources spent in the development domain by the United Nations system. In 2007, Ethiopia was the fifth largest recipient of technical assistance, with $337.9 million of total receipts for that year; an increase of $151.4 million.

Figure 4: Top 15 recipients of United Nations technical assistance, 2008
(in millions of dollars)



9. In 2008, the top 15 countries that received technical assistance changed. Of note, Zimbabwe, Iraq and Myanmar have entered the top 15 recipients of technical cooperation activities. Zimbabwe received $247.4 million, Iraq received $220.5 million, Uganda received $218.9 million, and Myanmar received $202.8 million.

10. Argentina, India and Nigeria were not part of the top 15 group for 2008, but these recipients still accounted for significant allocation of resources: Argentina received $186.4 million, India received $190.3 million and Nigeria received $163.7 million.

11. Specialized organizations, funds and programmes continued actively facilitating development assistance to programme countries. In 2008, expenditure of technical assistance from the United Nations system funds and programmes increased by 16 per cent to $15.2 billion, compared with $13.0 billion in 2007. UNICEF spent $2.7 billion in providing services to enhance the well-being of children through its funds and programmes; WFP spent $3.5 billion worth of food aid to its programmes. In alignment with its mandate, UNFPA focused on technical assistance in the area of population projects and programmes amounting to $554 million. UNDP spent $4.2 billion in alignment with its strategic plan. This was allocated between its central resources, comprising of core and cost-sharing activities plus its administered funds, which accounted for $3.0 billion and $1.2 billion, respectively.

12. In 2008, UNDP introduced corporate outcomes against corporate priorities, thus requiring a further mapping to the Administrative Committee on Coordination (ACC) sector approach. This committee was established in 1946 by the Economic and Social Council and has since been renamed the United Nations System Chief

Executives Board for Coordination. In the preparation of the 2008 sector classification, UNDP mapped its corporate outcomes to the ACC sectors.

13. For 2008, the combined pool of resources encompassed by the ACC sectors was $15.2 billion. Applying this classification, expenditure was as follows: humanitarian assistance received $3.8 billion (25 per cent); health received approximately $3.1 billion (20 per cent); general development received $1.8 billion (12 per cent); education received $1.0 billion (7 per cent); and agriculture, forestry and fisheries received $843.9 million (about 6 per cent). Aggregate expenditure for these five sectors was $10.5 billion (69 per cent). The balance of the funds was spread among 15 sectors for approximately $4.6 billion, equivalent to 31 per cent of the total expended technical cooperation.

II. Analysis of technical cooperation by organization

A. Other specialized organizations, funds and programmes

14. Expenditures funded from regular budgets for executing and specialized organizations increased more than 37 per cent: from $470.8 million in 2007 to $650.2 million in 2008. Expenditures funded from extra-budgetary sources other than UNDP, UNFPA, UNICEF and WFP (that is, participating organizations or funds and programmes) increased from $3.0 billion in 2007, to $3.5 billion in 2008, representing an increase greater than 13 per cent.

15. Within this classification of participating organizations, Brazil accounted for the highest proportion of resources expended: $117.7 million out of the available pool of $3.5 billion. The next highest recipients were: Sudan, with a total of $49.1 million, the Islamic Republic of Iran with $44.8 million, Afghanistan with $36.7 million, and India with $34.6 million. The five top programme countries received a total of $282.9 million, or 7 per cent, of total available funding.

16. In 2008, contributions received within the United Nations system to provide technical assistance through its specialized organizations, funds and programmes decreased from $4.1 billion in 2007, to $3.6 billion in 2008. This represents a reduction loss in income of approximately 12 per cent. Allocations were distributed between two major categories – bilateral and multilateral – with the bilateral category showing a decrease of almost 40 per cent, declining from $3.0 billion in 2007, to $1.8 billion in 2008. Within this category, countries/territories received a total of $1.5 billion, equal to a 35 per cent decrease over receipts in 2007 of $2.2 billion. Non-governmental organizations received $72 million, representing a loss in revenue of approximately 83 per cent from $437 million in 2007. Unilateral self-supporting contributions accounted for $277.8 million, a decrease from the $348.9 million reported in 2007 (20 per cent).

17. In contrast, the multilateral category showed a major increase in receipts, moving from $1.1 billion in 2007 to $1.8 billion in 2008 – a significant increase of 69 per cent. Within this category, receipts to the United Nations system amounted to $1.4 billion, an increase of 175 per cent over the $523.8 million received in 2007. Contributions to non-United Nations system measures dropped from $540.4 million in 2007, to $363.2 million, representing a decrease of 33 per cent.

B. United Nations Development Programme

18. The UNDP strategic plan 2008-2011, articulates the alignment of the organization with the Millennium Development Goals, as mentioned earlier in this document. UNDP focuses on four areas of comparative advantage: poverty eradication and internationally agreed development goals, including the Millennium Development Goals; democratic governance; crisis prevention and recovery; and environment and sustainable development.

19. UNDP programme expenditure rose from $2.0 billion in 2004, to $2.5 billion in 2005, $2.8 billion in 2006 and 2007, and $3.0 billion in 2008. Expenditure from central plus administered funds of UNDP was $4.3 billion in 2008 – an 11 per cent increase when compared to the 2007 level of $3.9 billion. Expenditure funded from regular resources, saw an increase of 10 per cent over the amount reported in 2007 from $536.7 million to $590.4 million. Third party cost sharing rose from $974.0 million in 2007 to $1.3 billion in 2008, representing a 35 per cent increase.

20. Voluntary contributions to UNDP appeared stable between the two years under consideration, with 2008 accounting for a small decline of almost 2 per cent. An analysis of growth trends beginning in 2004 showed a consistent rise in contributions to UNDP, recorded as follows: 2004 – $833.4 million and 2005 – $914.5 million. Income received in 2007 was the largest recorded in the last five years; therefore, the 2 per cent decrease in 2008 indicates a downturn in receipts.

C. World Food Programme

21. In 2008, the technical cooperation expenditure of WFP showed an increase of 28 per cent, to $3.5 billion from $2.7 billion in 2007. The five-year trend, 2004-2008, shows that WFP recorded technical cooperation expenditures of $2.9 billion in 2004, $2.9 billion in 2005, $2.7 billion in 2006, $2.8 billion in 2007 and $3.5 billion in 2008, respectively.

22. WFP spent $1.6 billion (60 per cent) of its resources in the humanitarian assistance sector. Within the Africa region, five countries accounted for $646.4 million (23 per cent) of WFP expenditure, namely: Kenya – $190.3 million; Ethiopia – $168.9 million; Uganda – $113.1 million; Zimbabwe – $97.9 million; and the Democratic Republic of Congo – $76.2 million. The Asia and the Pacific region was the next largest recipient, with Afghanistan receiving $133.7 million, Bangladesh receiving $79.4 million, Indonesia receiving $45.0 million, Sri Lanka receiving $43.0 million, followed by Thailand receiving $39.7 million.

23. Voluntary contributions to WFP for the 2008 fiscal year were $5.0 billion, an increase of 77 per cent from the $2.8 billion received in 2007. WFP has shown consistent growth in funding, having received $1.9 billion in 2004, $2.6 billion in 2005, $2.7 billion in 2006, $2.8 billion in 2007 and $5.0 billion in 2008.

D. United Nations Children's Fund

24. The technical cooperation expenditure of UNICEF increased from $2.4 billion in 2007 to $2.7 billion in 2008, an increase of 11 per cent. An analysis of the five-year trend of UNICEF participation in technical cooperation expenditure shows an increase from $2.4 billion in 2004, to $2.7 billion in 2008. Greater detail is available in table 14 of DP/2009/32/Add1. UNICEF has continued to surpass the $1 billion level in technical cooperation expenditure for the fifth consecutive year. The organization has directed $692.9 million of its resources to the humanitarian sector,

followed by $640.3 million to the health sector and $529.8 million to general development issues. In 2007, these three sectors accounted for $1.9 billion (76 per cent) in combined expenditures.

25. In 2008, technical cooperation provided to the Africa region amounted to $1.0 billion (41 per cent) of total expenditure. The five major recipient countries were: Democratic Republic of Congo – $115.8 million; Ethiopia – $98.1 million; Nigeria – $94.7 million; Uganda – $61.7 million; and Angola – $51.7 million. The Asia and the Pacific region followed, with $686.2 million (28 per cent) of total technical cooperation expenditure. The five highest recipient countries within this region were: Indonesia - $119.8 million; India – $107.1 million; Pakistan – $101.6 million; Afghanistan – $78.3 million; and Bangladesh – $56.4 million. These two regions received $1.7 billion (69 per cent) of overall assistance.

26. The five year trend in voluntary contributions donated to UNICEF was as follows: 2004 – $1.5 billion; 2005 – $2.5 billion; 2006 – $2.7 billion; 2007 – $2.9 billion; and 2008 surpassing that record, with $3.4 billion in contributions. For the 2008 fiscal year, the increase in contributions to UNICEF was 14 per cent more than the amount received in 2007.

E. United Nations Population Fund

27. The technical cooperation expenditure of UNFPA increased from $477.8 million in 2007, to $554.0 million in 2008, an increase of 16 per cent. This significant rise in programme expenditure was split across five regions. Africa and the Asia and the Pacific region received $129.4 million and $79.8 million, respectively, totalling $209.2 million (44 per cent) in technical cooperation expenditure. The five top recipient countries, in order of expenditure, were: Mozambique – $27.0 million; Sudan – $21.6 million; Democratic Republic of Congo – $13.9 million; India – $13.5 million; and Peru – $12.8 million.

28. For the 2008 fiscal year, UNFPA received $754.8 million in voluntary contributions – an increase of 12 per cent over $673.9 million received the prior year. For the five-year period beginning in 2004, voluntary contributions to UNFPA were: $406.6 million – 2004; $483.8 million – 2005; $529.1 million – 2006; $673.9 million – 2007; and $754.8 million – 2008.

F. The World Bank/International Development Association

29. As mentioned earlier in this document, the World Bank/International Development Association stopped recording expenditures specifically related to technical cooperation activities in 1998. In its place, the World Bank group uses a combination of loans and grants related to assistance preceding, or combined with, large-scale programmes and projects. Funding for these activities is often provided from: (a) learning and innovation loans; (b) technical assistance loans; (c) institutional development funds; and (d) the development grant facility. For a further breakdown of the World Bank group allocation of resources, reference may be made to table 23 of document DP/2009/32/Add.1.

30. The World Bank group reported total expenditure of $138.8 million, which represents a 39 per cent drop in technical assistance over $227.2 million reported in the prior year. The World Bank issued resources in the amount of $52.0 million during 2008, versus $96.4 million in 2007, equal to a decrease of 46 per cent. In 2008, the International Development Association expended $87.0 million in resources versus $130.8 million in 2007, a decrease of 33 per cent.

g/ Represents percentage increase/decrease from previous year.

Note: Contribution data refers to regular resources from contributions by Member States. Voluntary contributions comprise only one element of total income. In the case of UNDP, the elements other than this are: cost-sharing; funds and trust funds; government cash counterpart contributions; contributions to local office costs; extra-budgetary activities; and management. In the case of UNICEF, other elements of income include various private sources, inter-organizational arrangements and miscellaneous.

Note on the data

A. Mandate

1. In its decision 81/34, the Governing Council requested that the Administrator continue to provide data on the magnitude and composition of technical cooperation activities funded by organizations of the United Nations system.

2. General Assembly Resolution A/RES/63/232 relating to the funding of operational activities of the United Nations development system, and paragraph 4 "requests the United Nations Development Programme and the Department of Economic and Social Affairs of the Secretariat, making use of existing capacities within the Secretariat and, if necessary, voluntary contributions, to take the necessary steps to integrate by 2010 information from the report on United Nations system technical cooperation expenditures and its statistical addendum into the report on the comprehensive statistical analysis of the financing of operational activities for development of the United Nations system, to provide appropriate online access to this information and to report to the Economic and Social Council in 2009 on progress in this regard, and encourages the Executive Board of the United Nations Development Programme/United Nations Population Fund to take the necessary decision to make this possible".

B. Presentation of the data

3. Data submitted by United Nations organizations for 2008 were checked for consistency and accuracy prior to processing and presentation in tables 1 through 11. The data contained in these tables are shown at both summary and detailed level. Tables 1 through 8 provide data on technical cooperation expenditures, while tables 9, 10 and 11 report on contributions received by the system. Tables 12 through 22 contain historical data on both contributions and expenditures since 1983. Information on technical assistance provided by the World Bank and The International Development Association (IDA) is presented in table 23.

4. Table 1 presents a summary of technical cooperation expenditures by source organizations of the United Nations system. Table 2 presents provides the same information but with a focus on the sectors in receipt of the technical cooperation expenditure. These sectors were developed by the Administrative Committee on Coordination (ACC) in 1946, since renamed the 'United Nations System Chief Executives Board for Coordination'. Tables 1 and 2 provide information at the aggregate level on the entire UN system.

5. Table 3 presents an overview of the technical cooperation expenditures by executing agencies in the United Nations system according to category of expenditure, as follows: Regular budget - (A); United Nations system extra-budgetary sources other than UNDP - (B1); non-United Nations system multilateral sources - (B2); bilateral sources channelled through the United Nations system - (C1); and unilateral "self-supporting" sources - (C2). It should be noted that all expenditures by UNDP, The United Nations Children Fund (UNICEF) and The World Food Program (WFP) are classified as (B1) extra-expenditures and distributed according to sector. While this may appear to imply that those entities were directly responsible for the implementation of their entire programme, this is not necessarily the case; the aim is simply to preserve tractability and minimize double counting.

6. Tables 4 through 8 provide a detailed analysis of expenditure by categories, regions and recipient countries. Specifically, table 4 breaks down regular budget expenditures as described in (A) above by country and organization. This makes it possible to ascertain the amount of regular budgetary expenditure incurred by a given organization in a given country.

7. Table 5 provides information on the distribution of expenditure of all non-United Nations system multilateral sources (B2), by country and organization. Normally, the total in this table agrees with that of line B2 at the end of table 3 and at the extreme right column of the relevant row. However, there may be instances where there may be a difference due to reporting anomalies in the presentation and/or interpretation of the data provided by the source organization. In that case, a notation would have been recorded.

8. Table 6 captures the same data as that appearing in category (C1) of table 3. It reflects the detailed breakdown by country and organization of bilateral resources channelled to the United Nations executing organizations and specialized agencies. The distribution by country and organization of unilateral expenditure (C2) routed to executing organizations and specialized agencies and back to the contributing countries is shown in the 'self-supporting expenditures' column of table 8; the total of that column is in agreement with the amount reflected in the extreme right column of line (C2) of table 3.

9. Table 9 provides data on extra-budgetary contributions to the executing organizations and specialized agencies, organized under the following headings: unilateral and bilateral sources (country or territory and non-governmental organizations) and multilateral sources (United Nations system and non-United Nations system). Contributions received by executing organizations and specialized agencies to fund 'self-supporting" technical cooperation expenditures are presented in table 10.

10. Tables 12, 13, 14 and 15 present data on expenditure over a five- year period for UNDP, UNFPA, UNICEF and WFP respectively. They provide a snapshot of growth trends in technical cooperation over the most recent five-year period as well as, the percentage growth or decline in technical assistance.

11. The remaining tables contain historical data with varying time periods between 1983 and 2008. Technical cooperation expenditure, nominal amounts and rates of growth by the entire United Nations system for the period 1983 to 2008 are found in tables 16 and 17. Tables 18 and 19 reflect historical data on regular and extra-budgetary expenditure by executing organizations and specialized agencies. Tables 20 and 21 provide historical data and rates of growth of extra-budgetary contributions to executing organizations and specialized agencies. Table 22 reports historical summary data on voluntary contributions received by UNDP, UNFPA, UNICEF and WPF. Data relating to technical assistance provided by the World Bank /IDA is provided in table 23.

C. Caveats

11. Use of the data in the present document may be guided by the application of the following caveats:

(a) *Scope*. The data on expenditure/contributions refer only to those for technical cooperation. The report defines technical cooperation activities to include the work of UNDP, executing organizations and specialized agencies, UNFPA, UNICEF and WFP.

(b) *Expenditure coverage*. All expenditure data refer to the field programme activities of the entities concerned. All expenditure data are net of administrative, support and other costs except for UNDP which began reporting expenditure with the general management service fee in 2006. In most part, expenditure data refer to the actual amount of resources directly invested in developmental activities, which are classified here and in document DP/2009/29 as field programme expenditure. WHO also includes support costs in its reporting on technical cooperation expenditure.

(c) *The World Bank and the International Development Association*. In 1998 there was a shift in orientation and focus within the World Bank and IDA. These institutions would no longer specifically attempt to capture the technical assistance components of their projects. This decision resulted in the introduction of a new lending instrument: learning and innovations loans. These provide structured support for small, time-sensitive projects. They are often used as companions to structural adjustment loans to address long-term capacity-building issues that are linked to economic policy reform. Data submitted by the World Bank and IDA for 2008 are presented in table 23.

(e) *Contributions – Organizations*. Data on contributions by United Nations organizations refer to extra-budgetary contributions only; regular budgetary contributions are not included in the report. Based on this premise, contribution data on United Nations organizations must not be equated with income.

(f) *Contributions – UNDP and UNFPA.* Data on contributions to UNDP and UNFPA refer to voluntary contributions to regular resources only. In the case of UNDP, cost-sharing, contributions to local office costs, government cash counterpart contributions, funds and trust funds, management services agreements and miscellaneous contributions have been excluded from the total. For both entities, voluntary contributions are not the same as total contributions or total income.

(g) *Contributions – UNICEF.* Contribution data refer to voluntary contributions to regular resources from Governments, the private sector, and inter-organizational sources; contributions are not the same as total income.

D. Terminology

12. The utility of the data contained in this addendum can be significantly enhanced through an understanding of the terminology employed. The most important definitions and concepts are given below.

13. *Technical cooperation activities.* These are activities that aim to promote increasing self-reliance and thus strengthen the conditions necessary for sustainable human development. All United Nations organizations reviewed in the present report (with the exception of the World Bank and the IDA, to some extent) are considered to engage in technical cooperation activities.

14. *Regular budget expenditures.* These refer to technical cooperation expenditure of executing organizations and specialized agencies financed from assessed budgets (contributions). Table 4 in the statistical annex contains detailed data on the regular budget expenditures of United Nations organizations. UNDP, UNICEF, UNFPA and WFP do not have regular budget expenditures because contributions are entirely voluntary.

15. *Extra-budgetary expenditures.* As distinct from regular budget contributions, these refer to expenditures by United Nations organizations financed from voluntary contributions originating from multilateral and bilateral sources.

16. *Multilateral.* Multilateral sources are divided into: (a) United Nations system (B1); and (b) multilateral sources outside the United Nations system (B2). Total B1 (see table 3) expenditure comprises organization B1 expenditures and rest-of-system B1 expenditures, excluding the World Bank and IDA. Organization B1 expenditures fund technical cooperation activities from resources available within the United Nations system:. Considerable effort has been made to avoid the problem of double-counting (counting a payment and/or a receipt twice). The rest-of-system B1 comprises expenditures from UNDP, UNICEF, UNFPA and WFP.

17. *Bilateral.* Bilateral extra-budgetary expenditures are also grouped into two categories: (a) non-United Nations system sources (C1); and (b) unilateral self-supporting sources. The former comprises expenditures incurred against resources provided directly to a United Nations organization by a Member State or an NGO to fund technical cooperation activities in developing countries. The term 'unilateral' indicates that such expenditures finance activities within the country that made the contribution to the United Nations system. Unilateral expenditures are thus passed from the given country to the United Nations system and back to the same country, having acquired a dual character: unilateral because they return to the contributing country; bilateral because they were routed from a country to the United Nations system.

18. *Agency extra-budgetary contributions.* These are used to fund extra-budgetary expenditures. Extra-budgetary contributions are voluntary contributions, which may be tied to a specific purpose or geographic location and which are divided in two broad groups: bilateral and multilateral. Bilateral contributions are broken down into: (a) contributions from countries and territories, representing funds donated to the United Nations system to support activities in developing countries; (b) contributions from NGOs to the United Nations system; and (c) unilateral self-supporting contributions, made by a country to finance technical cooperation activities in that country. Multilateral contributions are subdivided into: (a) contributions from the United Nations system and (b) contributions originating outside the United Nations system, made by multilateral organizations that are not part of the United Nations system.

Note on the data

A. Mandate

1. In its decision 81/34, the Governing Council requested that the Administrator continue to provide data on the magnitude and composition of technical cooperation activities funded by organizations of the United Nations system.

2. General Assembly Resolution A/RES/63/232 relating to the funding of operational activities of the United Nations development system, and paragraph 4 "requests the United Nations Development Programme and the Department of Economic and Social Affairs of the Secretariat, making use of existing capacities within the Secretariat and, if necessary, voluntary contributions, to take the necessary steps to integrate by 2010 information from the report on United Nations system technical cooperation expenditures and its statistical addendum into the report on the comprehensive statistical analysis of the financing of operational activities for development of the United Nations system, to provide appropriate online access to this information and to report to the Economic and Social Council in 2009 on progress in this regard, and encourages the Executive Board of the United Nations Development Programme/United Nations Population Fund to take the necessary decision to make this possible".

B. Presentation of the data

3. Data submitted by United Nations organizations for 2008 were checked for consistency and accuracy prior to processing and presentation in tables 1 through 11. The data contained in these tables are shown at both summary and detailed level. Tables 1 through 8 provide data on technical cooperation expenditures, while tables 9, 10 and 11 report on contributions received by the system. Tables 12 through 22 contain historical data on both contributions and expenditures since 1983. Information on technical assistance provided by the World Bank and The International Development Association (IDA) is presented in table 23.

4. Table 1 presents a summary of technical cooperation expenditures by source organizations of the United Nations system. Table 2 presents provides the same information but with a focus on the sectors in receipt of the technical cooperation expenditure. These sectors were developed by the Administrative Committee on Coordination (ACC) in 1946, since renamed the 'United Nations System Chief Executives Board for Coordination'. Tables 1 and 2 provide information at the aggregate level on the entire UN system.

5. Table 3 presents an overview of the technical cooperation expenditures by executing agencies in the United Nations system according to category of expenditure, as follows: Regular budget - (A); United Nations system extra-budgetary sources other than UNDP - (B1); non-United Nations system multilateral sources - (B2); bilateral sources channelled through the United Nations system - (C1); and unilateral "self-supporting" sources - (C2). It should be noted that all expenditures by UNDP, The United Nations Children Fund (UNICEF) and The World Food Program (WFP) are classified as (B1) extra-expenditures and distributed according to sector. While this may appear to imply that those entities were directly responsible for the implementation of their entire programme, this is not necessarily the case; the aim is simply to preserve tractability and minimize double counting.

6. Tables 4 through 8 provide a detailed analysis of expenditure by categories, regions and recipient countries. Specifically, table 4 breaks down regular budget expenditures as described in (A) above by country and organization. This makes it possible to ascertain the amount of regular budgetary expenditure incurred by a given organization in a given country.

7. Table 5 provides information on the distribution of expenditure of all non-United Nations system multilateral sources (B2), by country and organization. Normally, the total in this table agrees with that of line B2 at the end of table 3 and at the extreme right column of the relevant row. However, there may be instances where there may be a difference due to reporting anomalies in the presentation and/or interpretation of the data provided by the source organization. In that case, a notation would have been recorded.

8. Table 6 captures the same data as that appearing in category (C1) of table 3. It reflects the detailed breakdown by country and organization of bilateral resources channelled to the United Nations executing organizations and specialized agencies. The distribution by country and organization of unilateral expenditure (C2) routed to executing organizations and specialized agencies and back to the contributing countries is shown in the 'self-supporting expenditures' column of table 8; the total of that column is in agreement with the amount reflected in the extreme right column of line (C2) of table 3.

9. Table 9 provides data on extra-budgetary contributions to the executing organizations and specialized agencies, organized under the following headings: unilateral and bilateral sources (country or territory and non-governmental organizations) and multilateral sources (United Nations system and non-United Nations system). Contributions received by executing organizations and specialized agencies to fund 'self-supporting" technical cooperation expenditures are presented in table 10.

10. Tables 12, 13, 14 and 15 present data on expenditure over a five- year period for UNDP, UNFPA, UNICEF and WFP respectively. They provide a snapshot of growth trends in technical cooperation over the most recent five-year period as well as, the percentage growth or decline in technical assistance.

11. The remaining tables contain historical data with varying time periods between 1983 and 2008. Technical cooperation expenditure, nominal amounts and rates of growth by the entire United Nations system for the period 1983 to 2008 are found in tables 16 and 17. Tables 18 and 19 reflect historical data on regular and extra-budgetary expenditure by executing organizations and specialized agencies. Tables 20 and 21 provide historical data and rates of growth of extra-budgetary contributions to executing organizations and specialized agencies. Table 22 reports historical summary data on voluntary contributions received by UNDP, UNFPA, UNICEF and WPF. Data relating to technical assistance provided by the World Bank /IDA is provided in table 23.

C. Caveats

11. Use of the data in the present document may be guided by the application of the following caveats:

(a) *Scope.* The data on expenditure/contributions refer only to those for technical cooperation. The report defines technical cooperation activities to include the work of UNDP, executing organizations and specialized agencies, UNFPA, UNICEF and WFP.

(b) *Expenditure coverage.* All expenditure data refer to the field programme activities of the entities concerned. All expenditure data are net of administrative, support and other costs except for UNDP which began reporting expenditure with the general management service fee in 2006. In most part, expenditure data refer to the actual amount of resources directly invested in developmental activities, which are classified here and in document DP/2009/29 as field programme expenditure. WHO also includes support costs in its reporting on technical cooperation expenditure.

(c) *The World Bank and the International Development Association.* In 1998 there was a shift in orientation and focus within the World Bank and IDA. These institutions would no longer specifically attempt to capture the technical assistance components of their projects. This decision resulted in the introduction of a new lending instrument: learning and innovations loans. These provide structured support for small, time-sensitive projects. They are often used as companions to structural adjustment loans to address long-term capacity-building issues that are linked to economic policy reform. Data submitted by the World Bank and IDA for 2008 are presented in table 23.

(e) *Contributions – Organizations.* Data on contributions by United Nations organizations refer to extra-budgetary contributions only; regular budgetary contributions are not included in the report. Based on this premise, contribution data on United Nations organizations must not be equated with income.

(f) *Contributions – UNDP and UNFPA.* Data on contributions to UNDP and UNFPA refer to voluntary contributions to regular resources only. In the case of UNDP, cost-sharing, contributions to local office costs, government cash counterpart contributions, funds and trust funds, management services agreements and miscellaneous contributions have been excluded from the total. For both entities, voluntary contributions are not the same as total contributions or total income.

(g) *Contributions – UNICEF.* Contribution data refer to voluntary contributions to regular resources from Governments, the private sector, and inter-organizational sources; contributions are not the same as total income.

D. Terminology

12. The utility of the data contained in this addendum can be significantly enhanced through an understanding of the terminology employed. The most important definitions and concepts are given below.

13. *Technical cooperation activities.* These are activities that aim to promote increasing self-reliance and thus strengthen the conditions necessary for sustainable human development. All United Nations organizations reviewed in the present report (with the exception of the World Bank and the IDA, to some extent) are considered to engage in technical cooperation activities.

14. *Regular budget expenditures.* These refer to technical cooperation expenditure of executing organizations and specialized agencies financed from assessed budgets (contributions). Table 4 in the statistical annex contains detailed data on the regular budget expenditures of United Nations organizations. UNDP, UNICEF, UNFPA and WFP do not have regular budget expenditures because contributions are entirely voluntary.

15. *Extra-budgetary expenditures.* As distinct from regular budget contributions, these refer to expenditures by United Nations organizations financed from voluntary contributions originating from multilateral and bilateral sources.

16 *Multilateral.* Multilateral sources are divided into: (a) United Nations system (B1); and (b) multilateral sources outside the United Nations system (B2). Total B1 (see table 3) expenditure comprises organization B1 expenditures and rest-of-system B1 expenditures, excluding the World Bank and IDA. Organization B1 expenditures fund technical cooperation activities from resources available within the United Nations system:. Considerable effort has been made to avoid the problem of double-counting (counting a payment and/or a receipt twice). The rest-of-system B1 comprises expenditures from UNDP, UNICEF, UNFPA and WFP.

17. *Bilateral.* Bilateral extra-budgetary expenditures are also grouped into two categories: (a) non-United Nations system sources (C1); and (b) unilateral self-supporting sources. The former comprises expenditures incurred against resources provided directly to a United Nations organization by a Member State or an NGO to fund technical cooperation activities in developing countries. The term 'unilateral' indicates that such expenditures finance activities within the country that made the contribution to the United Nations system. Unilateral expenditures are thus passed from the given country to the United Nations system and back to the same country, having acquired a dual character: unilateral because they return to the contributing country; bilateral because they were routed from a country to the United Nations system.

18. *Agency extra-budgetary contributions.* These are used to fund extra-budgetary expenditures. Extra-budgetary contributions are voluntary contributions, which may be tied to a specific purpose or geographic location and which are divided in two broad groups: bilateral and multilateral. Bilateral contributions are broken down into: (a) contributions from countries and territories, representing funds donated to the United Nations system to support activities in developing countries; (b) contributions from NGOs to the United Nations system; and (c) unilateral self-supporting contributions, made by a country to finance technical cooperation activities in that country. Multilateral contributions are subdivided into: (a) contributions from the United Nations system and (b) contributions originating outside the United Nations system, made by multilateral organizations that are not part of the United Nations system.

Statistical annex

Table 1. The United Nations system: summary of technical cooperation expenditure by source of funding, 2007-2008
(In thousands of dollars)

Agency	Total agency technical cooperation expenditures		Funded by regular budgets		Funded by extra-budgetary sources other than UNDP, UNDP-administered funds, UNFPA, UNICEF and WFP a/		Technical cooperation expenditures by UNFPA		Technical cooperation expenditures by UNICEF and WFP		Technical cooperation expenditures by UNDP central resources		Technical cooperation expenditures by UNDP administered funds		Total c/ UNDP

---

a/ The sum total of this column is equal to B1 (Other UN system sources) expenditure minus [UNFPA+UNICEF+WFP+UNDP(central resources plus administered funds)]+B2+C1+C2 in table 3 or, alternatively, the sums of table 5 through table 7 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds) + "Self-supporting expenditures" of table 8.

b/ This column represents 2006 and 2007 expenditures for WFP and UNICEF.

c/ UNDP total expenditure which includes Core, cost-sharing, administered funds and trust funds

d/ Administered funds include: UNSO+UNCDF+UNIFEM+direct execution

e/ WTO - regular budget financed by means of resources oher than the statutory contributions of Members of the Organization

f/ WFP and ECA reported expenditure do not include programme support costs

Table 2. United Nations system: summary of technical cooperation expenditure by sector, 2007 - 2008

a/ The sum total of this column is equal to B1 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)]+B2+C1+C2 in table 3 or, alternatively, the sums of table 7 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)] + table 5 + table 6 + "Self-supporting expenditures" of table 8.

b/ Consist of expenditure from regular resources plus cost-sharing

c/ In light of the turnover of the REBTC report to UNDESA per GA resulution A/RES/63/232, the cateronzation used was based on mapping the ACC sectors to Corporate Outcomes. This mapping may be revisited by UNDESA in 2010

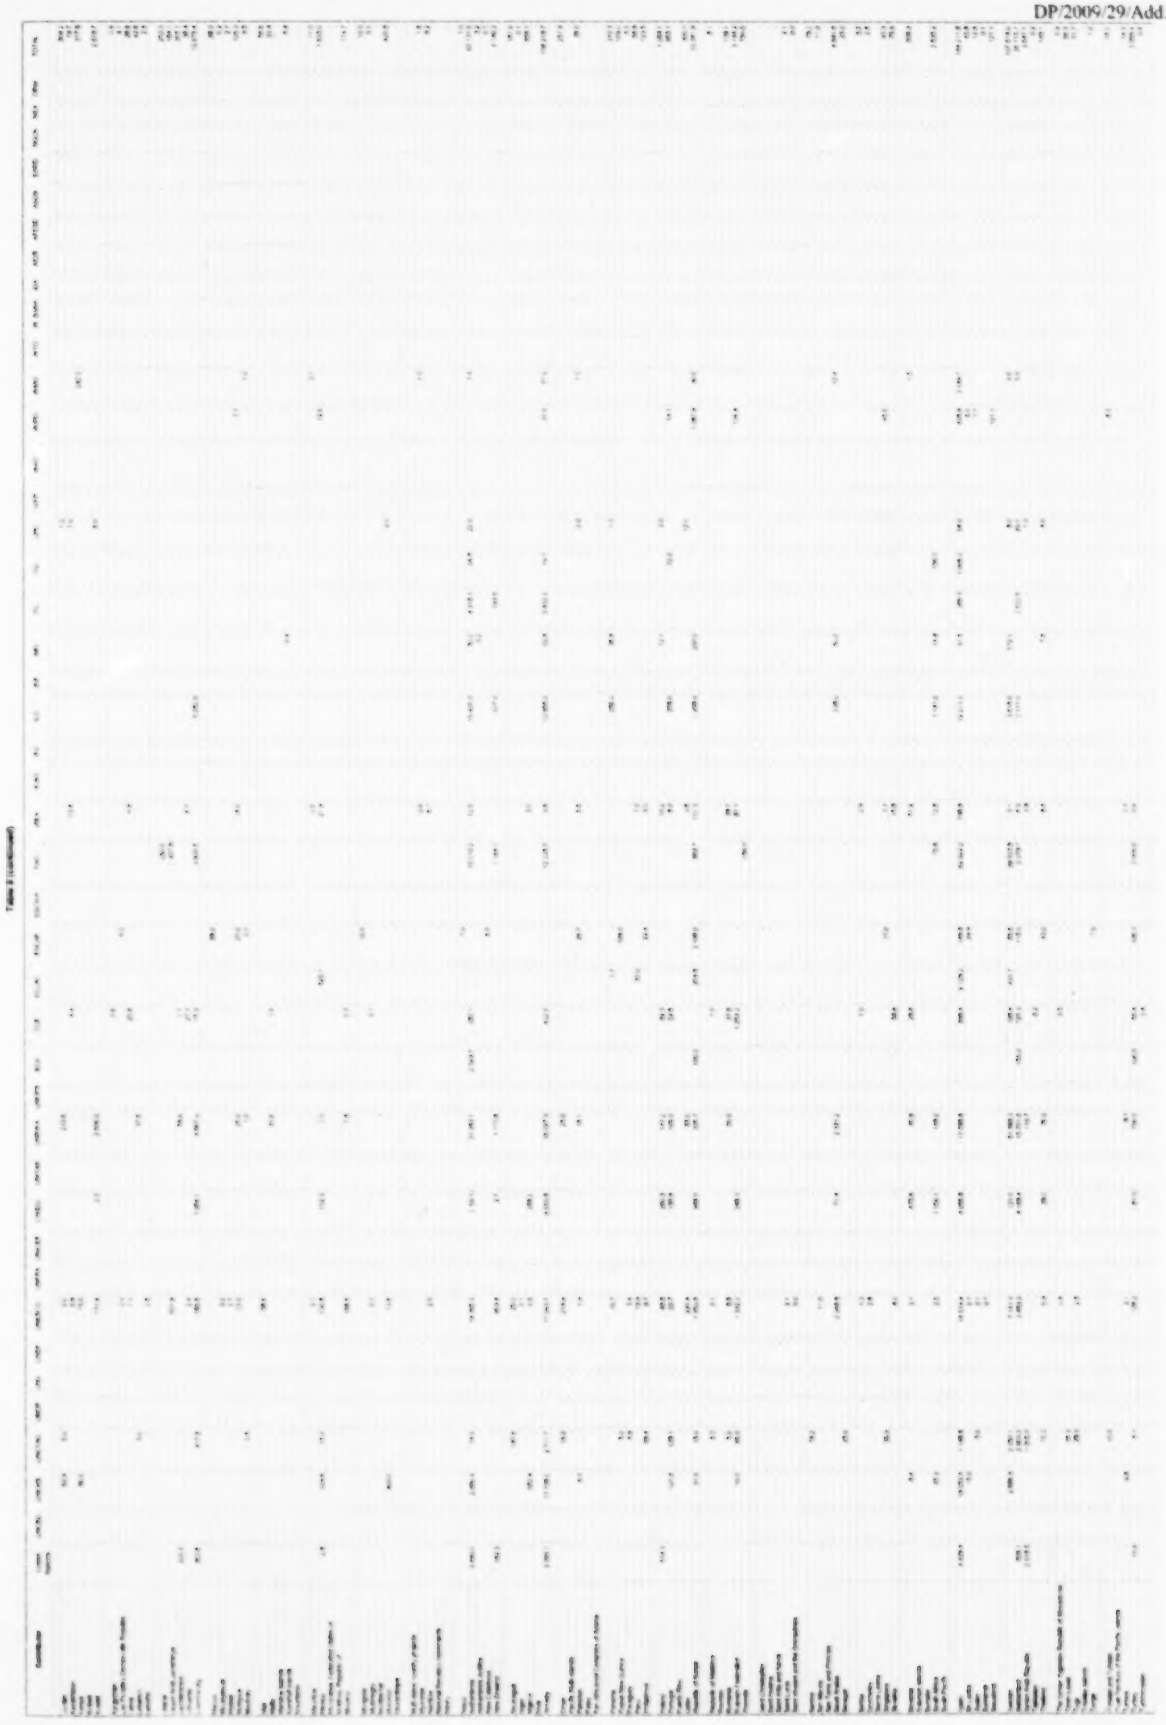
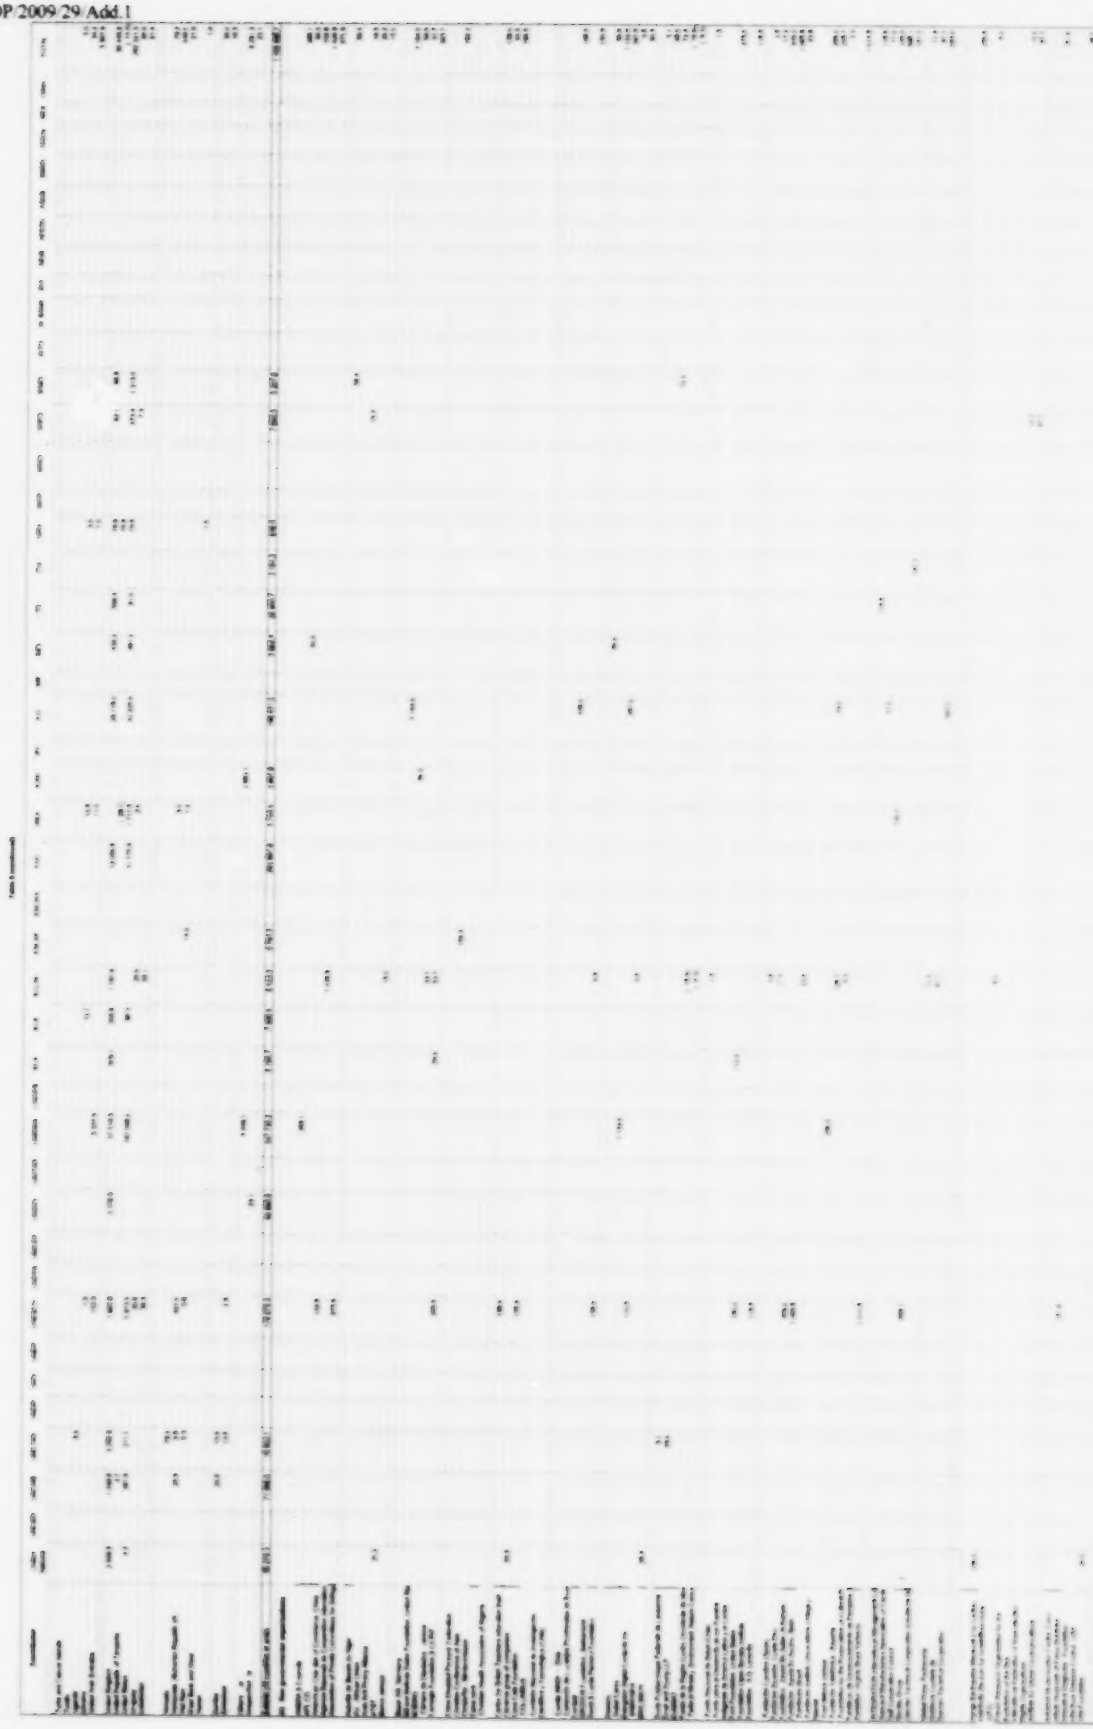
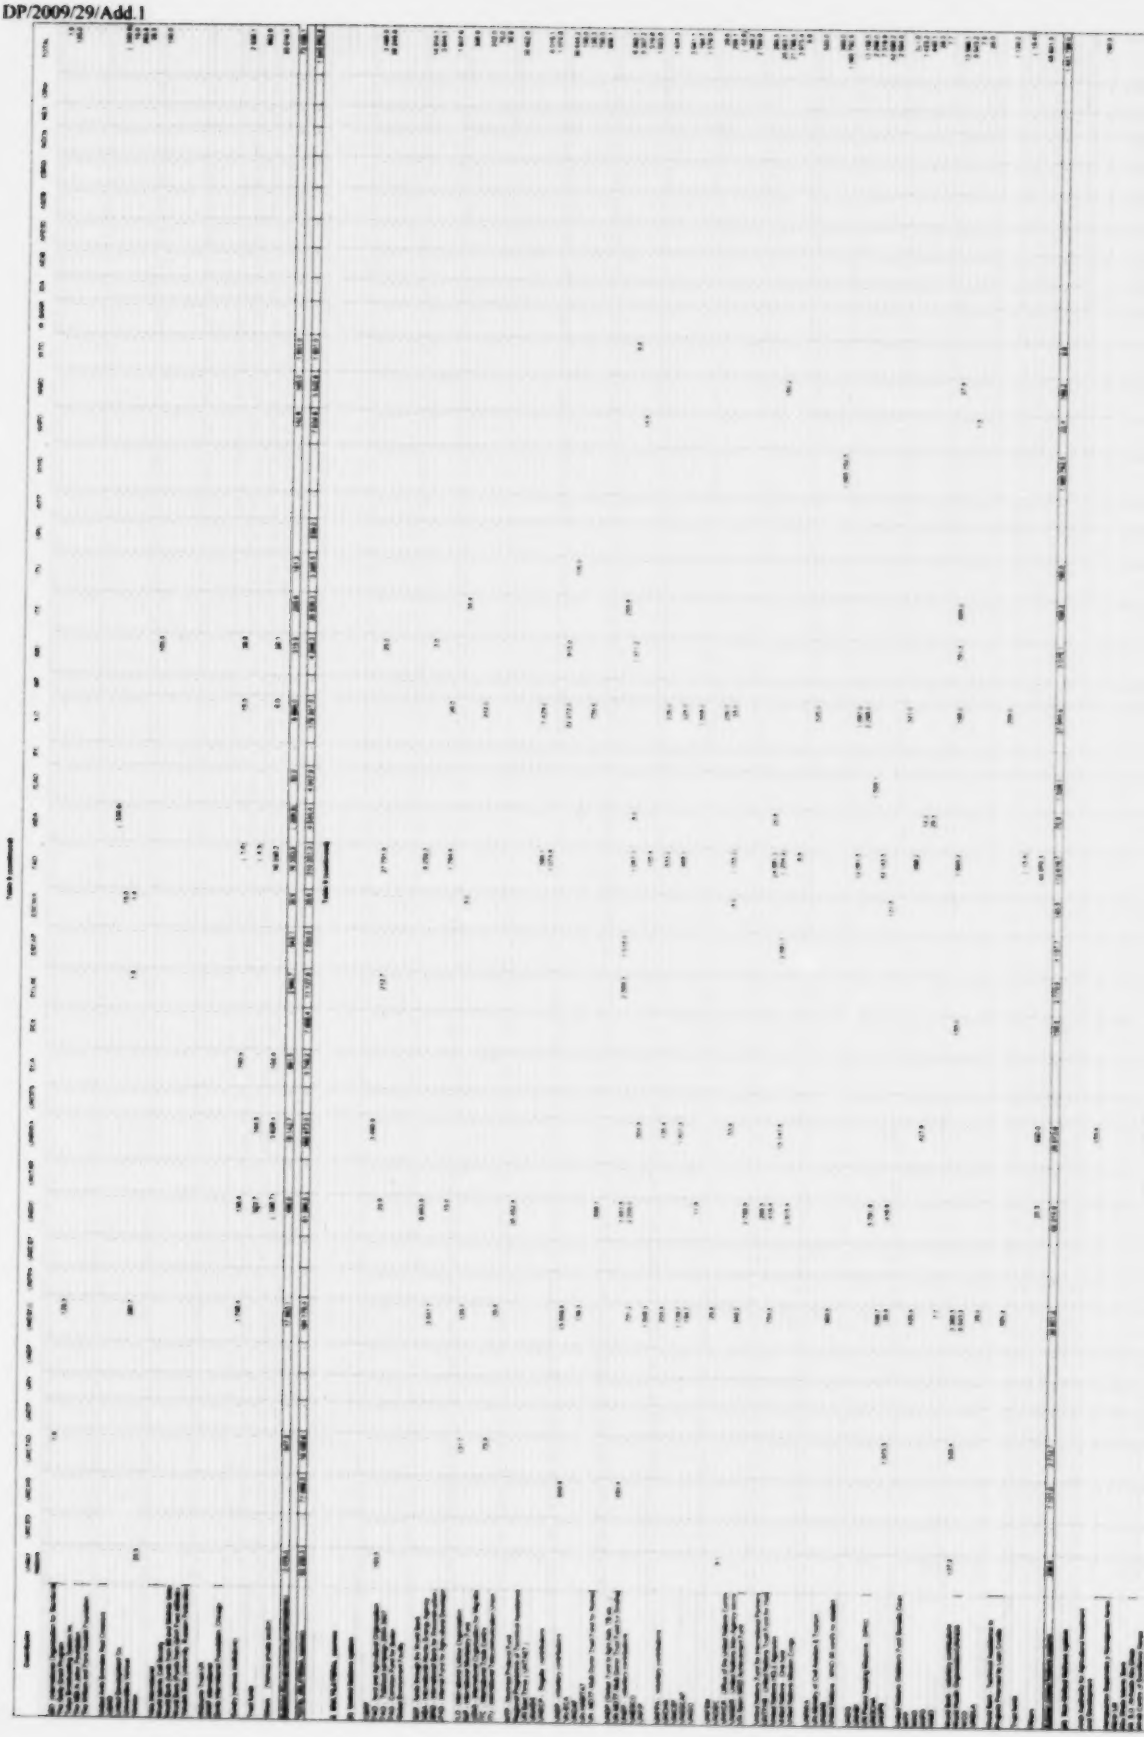
a/ Total expenditure from regular budget of organizations reflects data contained in table 4 of this statistical annex.
b/ Agency extra-budgetry expenditure reports total amounts contained in tables 5,6, and 7 less the amounts reported by UNFPA, UNICEF, WFP. Note that the total amount in this column is not the same as the total amount in the column entitled 'Funded by extrabudgetary sources other than UNDP, UNDP-administered funds, UNFPA, UNICEF, WFP' of tables 1 and 2 since it excludes self-supporting expenditures.
c/ Reports expenditures against WFP general resources and special trust funds in support of programmes and projects of developing countries. It excludes programme support costs and administrative costs.
d/ Reflects expenditure incurred for UNDP central resources and cost-sharing and trust funds established by the Administrator, where applicable.
e/ The table showing breakdown by agency may be obtained on request from UNDP.
f/ There is a total rounding element of 0.7 between table 8 and table 3 purporting to the presentation of these tables. This does not constitute a material deviation from the combined pool of resources expended

Table 9 Extrabudgetary contributions to United Nations organizations bilateral and multilateral, excluding local cooperation, sources, 2008
(in thousands of dollars)







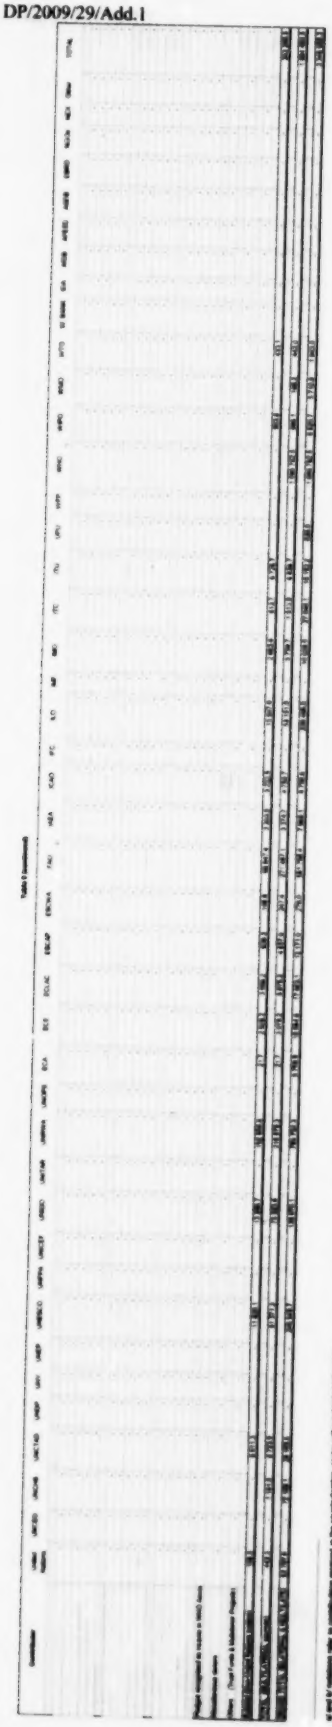


Table 10. Extra-budgetary contributions to United Nations organizations: unilateral self-supporting sources, 2008
(in thousands of dollars)

a/ 2008 expenditures incurred from Unilateral Self-supporting sources showed a 21.7 per cent decrease.
b/ For 2008, WHO did not report contributions received under thisUnilateral Self-supporting sources. However, WHO has implemented the IPSAS definition of income under their revised recognization policy - "Income is recognized upon signature of donor agreements and not when it is received."

a/ This table reports on contributions relating to WFP, UNICEF and UNFPA over a five year period (2004-2008) and includes both regular and extrabudgetary resources.
b/ In 2008 WFP, UNICEF and UNFPA saw increases in contributions of 77 per cent, 14 per cent and 12 per cent respectively.
c/ UNFPA contributions i.e. General + others are combined
d/ The five-year trends for these agencies are depicted graphically in tables 15, 14, and 13 respectively.

a/ The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.
b/ WFP reported revised expenditure figures for 1996, 1997, 1998, 1999 and 2000 and 2001.
c/ Although 2003 World Bank data is not representative of technical cooperation per se, it is nevertheless included in this table. For 2008 only amount pertinent to World Bank and IDA lending instruments are captured in this report. Grants equivalent to 198.8 million are excluded. See also note d/ below.
d/ "Total United Nations system (1)" includes the World Bank and IDA; "Total United Nations system (2)" excludes the World Bank and IDA.

Note: Beginning 1998, the World Bank/IDA does not report technical cooperation expenditure (see "Note on the data" for explanation). This caveat should be borne in mind when using the amounts reported in the column "Total United Nations system (1)" after 1998.

a/ The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.
b/ Please note that the growth of nominal technical cooperation expenditure in 2003 could not be computed for the World Bank and IDA, as no data was submitted for 2001 and 2002.
c/ "Total United Nations system (1)" includes the World Bank and IDA; "Total United Nations system (2)" excludes the World Bank and IDA.
Note: Beginning 1998, the World Bank/IDA does not report technical cooperation expenditure (see "Note on the data" for explanation). This caveat should be borne in mind when using the amounts reported in the column "Total United Nations system (1)" after 1998.
d/ For 2006 computation of percentages for World Bank and IDA percentage is not included due to the absence of prior year figures.
